Introduction

Irwins Sportsturf Limited was established in May 2018 to offer customers the best service and products available from leading suppliers in the industry.

We are pleased to be distributors for Angus Horticulture, Aquatrols, Barenbrug, Bayer, Bowcom, ICL, Ocean Knowledge & Syngenta, along with our own bespoke range of granular and liquid products under the "Isturf" brand. This allows us to tailor formulations for the specific and individual requirements in our locality.

This is our largest ever catalogue, and to offer the best service and customer support over 98% of the products listed are in stock.

We also offer course equipment from Pinseeker, Par Aide, FMW Distinct TJ Golf & Boyd Golf Course Accessories.

Location

Our purpose built 4700ft² office, warehouse and trade counter located just off the M1 at Junction 10 in Lurgan serves sports clubs, contractors and members of the public with materials and garden machinery.

May I take the opportunity to thank our customers for their continued support.

We offer regular deliveries throughout Northern Ireland in our own vehicles or via a network of couriers.

Kind Regards

Kyle Irwin

Managing Director

COLD START SPRING FERTILISER

Product description:

IGNITE 10-4-4 4Mg 3Fe 8Ca + seaweed s a mini granule blended fertiliser contains 2 forms of quick release nitrogen to encourage early Spring growth and colour.

IGNITE is an ideal Spring start fertiliser for use in cooler conditions.

IGNITE is best applied where rapid response is required.

IGNITE contains readily available Phosphorus and Potassium for enhanced turf vigour and health.

IGNITE is best watered in after application to aid dispersal.

Bag Size: 20kg
Application Rate: 20 to 50kg/ha

LAWN SAND

Angus High Iron Lawnsand 3-0-0 7fe

Our Lawn Sands are the finest on the market. Using specially graded and dried sand we blend in the Nitrogen (N) and Iron (Fe) using high quality products from UK and Europe.

Bag Size: 25kg
Application Rate: 20 to 60kg/ha

Fine Turf & Bowling Greens ³

Greenmaster[®] Pro-Lite[®]

NK

12-0-12 3Mg 2Fe

Ideal for use from spring through to late summer to maintain potassium levels.

Pack Size: 25kg bag
Application Rate: 30 to 35g/m²

Spring & Summer

14-5-10 2Mg

Maintains strong growth levels and enhances turf colour during the spring and summer months.

Pack Size: 25kg bag
Application Rate: 30 to 35g/m²

ISTURF FINE TURF FERTILISER

isturf Fine Turf Fertilisers have been specifically formulated to the high standards of Irwins Sportsturf. Using the highest quality ingredients available to ensure consistent high quality results.

SGN 125. App. rate of 35 to 50g/m².

High K & Fe 6-5-10 6Fe

Double K 7-0-14 2Mg 2Fe

Greens Response 13-2-13 2Fe, Cu, Mn, Zn

Micro Greens 15-4-15 0.5Fe, 60%MU

ICL SPORTSMASTER® MINI CRF

**Sportsmaster®
CRF Mini**

Spring Starter (2-3 month)

20-5-10

Ideal for use as an early season boost and will sustain turf health through the growing season.
43% coated.
1mm to 2.5mm

Pack Size: 25kg bag
Application Rate: 20 to 35g/m²

High N (2-3 month)

24-5-11

Ideal first controlled release fertiliser of the season. Quick reaction in cooler conditions.
42% coated.
1mm to 2.5mm

Pack Size: 25kg bag
Application Rate: 20 to 35g/m²

ACTIVE (2-3 month)

15-5-15 2Ca 2Mg

Ideal pre stress conditioning.
41% coated.
1mm to 2.5mm

Pack Size: 25kg bag
Application Rate: 20 to 35g/m²

ISTURF

28-3-10 50% V90 3mth+

Product description:

Sportsturf Control 28-3-10 50% V90 is a mini granule blended controlled fertiliser for use in lawns and gardens where staining from products containing iron would be an issue.

Sportsturf Control has 50% quick release nitrogen for initial green up and response.

Sportsturf Control provides consistent plant food for over 3 months.

Sportsturf Control is a mini granule SGN250 for easy dispersal.

Bag Size: 20kg
Application Rate: 30to 50g/m²

COMPO NOVATEC®

**NovaTec® N-Max
24-5-5 (+2+TE)**

Novatec classic contains DMMP, an environmentally friendly nitrogen inhibitor which extends N release.

Every granule contains all nutrients and micronutrients

Bag Size: 25kg
Application Rate: 25 to 46g/m²

ISTURF MINI PRESEEDER

ISTURF 6-9-6 MINI PRESEEDER

A fine grade mini fertiliser to encourage strong establishment of seed and turf.

Pack Size: 20kg bag

Application Rate: 15 to 35g/m²

ISTURF ALL ROUNDER TRIPLE 16

An economical fertiliser for Sportstfields. Strong Spring growth. Ideal sportsground preseed fertiliser.

Pack Size: 20kg bag

Application Rate: 20to 35g/m²

ORGANIC FINE TURF FERTILISER

5

Headland C-Complex 5-2-10 2Ca + Mg

Contains 4 nitrogen sources for improved performance and longevity.

50% of nitrogen derived from ammonium sulphate and potassium nitrate for good low temperature response.

50% nitrogen from organic sources for extended release.

7.2% humic acid and cold-pressed seaweed meal

Pack Size: 25kg bag

Application Rate: 35 to 50g/m²

Headland C-Complex 4-3-4 5Ca + 3Mg

Contains naturally occurring micronutrients

Ammonium nitrogen for low temperature release.

100% of potassium derived from organic sources for extended release.

Composted cow manure base

9% humic acid content

Ideally suited for use at aeration

Pack Size: 25kg bag

Application Rate: 35 to 50g/m²

SOLUBLES

isturf Hi N Special 28-6-12+MgO + TE

A high nitrogen analysis containing urea, ammonium and nitrate sources.

Fully chelated trace element package.

Pack Size: 20kg bag

Application Rate: 20 to 60kg/ha

isturf K- Mag 15-7-30 +MgO + TE

A highly soluble potassium analysis with potassium nitrate. Acid buffering.

Pack Size: 20kg bag

Application Rate: 20 to 60kg/ha

QuickflocS Fe 17.6% Fe

A highly soluble iron containing 17.6%.

Cost effective tank mix partner with many soluble fertilisers.

Pack Size: 25kg bag
Application Rate: 8 to 25kg/ha

isturf 46-0-0 NMAXX

A high quality 100% stabilized controlled release nitrogen source.

Pack Size: 20kg bag
Application Rate: 20 to 60kg/ha

Sportsmaster® WSF

Spring & Summer 28-5-19 + TE

Nitrogen boost with potassium and trace element package for enhanced turf health.

Pack Size: 15kg bag

Application Rate: Foliar: 15 to 30kg/ha

Soil: 45 to 60kg/ha

High K 15-0-43 + 0.13Fe

The low nitrogen to high potassium ratio ensures maximum turf hardening and stress conditioning.

Pack Size: 15kg bag

Application Rate: Foliar: 15 to 30kg/ha

Soil: 45 to 60kg/ha

Van Iperren Sulphate of Ammonia 21-0-0

A high quality 21-0-0 nitrogen. Low on sodium and chloride. Suitable for foliar application.

Pack Size: 25kg bag
Application Rate: 6 to 25kg/ha

Ferrous Sulphate

Damp Grade—highly soluble iron source.

Pack Size: 25kg bag
Application Rate: 6 to 25kg/ha

isturf 46-0-0

A high quality 100% Urea Nitrogen source.

Pack Size: 20kg bag
Application Rate: 6 to 20kg/ha

Weed, Feed & Moss Control

ISTURF MOSSKILLER

ISTURF MOSSKILLER 4-0-4 9Fe

High Iron content for moss control

Ideal as a Spring Starter fertiliser

Potassium and iron to aid turf hardening and disease control

Pack Size: 20kg bag

Application Rate: 30 to 50g/m²

Pack treats: 400 to 666m²

Angus Feed, Weed & Moss Killer 10-2-2 3Ca 8fe + herbicide

A homogenous 3 in 1 mini granule weedkiller contains 3 active ingredients for control of broad-leaved weeds.

Pack Size: 25kg bag

Application Rate: 35 to 50g/m²

Sportsmaster®

ICL SPORTSMASTER CLEANRUN 14-0-5 + Herbicide

NO IRON

Weed and feed single application in spring or summer when broad leaf weeds are present.

Pack Size: 25kg bag

Application Rate: 35g/m²

Pack treats: 714m²

ICL SPORTSMASTER RENOVATOR PRO 14-0-5 16Fe + Herbicide

16% IRON

All in One product for broad spectrum weed control. High Iron content for moss control.

Pack Size: 25kg bag

Application Rate: 35g/m²

Pack treats: 714m²

Iron Ferromel 17 17% Fe

Iron powder, for best results when spraying this product may need to be broken down in warm water, or added to sprayer while agitating.

Can be applied as a dry powder.

Warning: Iron will stain paving/concrete/clothing.

Pack Size: 15kg bag

Application Rate: 6 to 25g/m²

ORGANICS BASED

Gronamic® Golf 6-2-4 Fine Grade

Organo—mineral fertiliser
Organic content 100%
plant—based
Contains SMX seaweed
extract
Contains Ca & Mg

Pack Size: 20kg

App Rate: 25 to 35g/m²

Gronamic® Golf HI K 15-0-22 1.2Mg 1Ca 1.5Fe

Fine Grade
Plant based organic
component
Combined ammonium, urea
and organic nitrogen
sources.

Gronamic® SPORT 16-3-6 2Ca 2Mg 0.5Fe

Outfield Grade
Organic component
supplies carbon to the soil.
High nitrogen levels for
sustained growth.
Ideal through main growth
periods of the season.

Pack Size: 20kg

Application Rate: 30 to 40g/m²

Revolution

THE WORLDS LEADING SOIL SURFACTANT

Ensures Efficient water usage.
Improves rootzone moisture distribution. Maximizes turf quality under stressful conditions

Pack Size: 10lt, 208lt, 1022t
Application Rate: 19lt/ha

Qualibra

Qualibra combines a unique and dynamic penetrant with a powerful polymer to optimize water penetration and conservation within the rootzone.

Pack Size: 10lt, 200lt & 500lt
Application Rate: 20lt/ha

Primer Select

Prevents water repellency issues

Promotes turf uniformity

Establishes the desired "matrix flow" in the rootzone.

Flexible application rates

Pack Size: 10lt
Application Rate: 10lt/ha

H2Pro Tri Smart

H2Pro Tri Smart is formulated with three water management surfactant technologies to provide great water penetration, even water spread throughout the rootzone and to improve the water holding capacity of sandy rootzones.

Pack Size: 5lt & 120lt
Application Rate: 10lt/ha monthly

Firmway

Helps deliver a consistent playing surface
Improves the distribution and infiltration of irrigation water and rainfall

Pack Size: 10lt
Application Rate: 2 to 6 lt/ha

H2Pro AquaSmart

H2Pro AquaSmart is an outfield wetting agent for a low rate application to provide a cost effective programme.

Pack Size: 5lt & 120lt
Application Rate: 5 to 10lt/ha
Every 4–6 weeks

Aquaduct

Aquaduct is a rapid recovery soil surfactant that is specifically designed to quickly alleviate localized dry spot. It can also be used as a pre-treatment tool to correct problem areas on turf before starting a regular preventative soil surfactant program.

Pack Size: 10lt
Application Rate: 25lt/ha

H2Pro Dew Smart

H2Pro Dew Smart is a dew dispersant product for turf grass areas. Under optimum conditions dew control can last 3 to 4 weeks. Can help reduce disease

Pack Size: 10lt & 120lt
Application Rate: 10lt/ha
Longevity: Up to 21 days if applied in optimum conditions.

028 3888 4188

WETTING AGENTS

Dispatch Sprayable

Soil Penetrant.
Non Anionic—will not adversely affect soil structure.
Patented technology
Improves infiltration and penetration of water

Pack Size: 10lt
Rate: 2ltt/ha

H2Pro Flow Smart

H2Pro Flow Smart is a high performance penetrant wetting agent for use on a wide range of turf surfaces. Reduces surface tension of water to promote quick water infiltration and penetration.

Pack Size: 10lt & 120lt
Application Rate: 10lt/ha monthly

Advantage & Advantage + Seaweed Tablets

Distributes applied water more uniformly
Addition of seaweed reduces plant stress and aid root growth

Pack Size: 6 tablets
Rate: variable

H2Tablet

H2Pro Tablets are especially effective for the treatment of localized Dry Spot and for helping to reduce overall irrigation requirement.

Pack Size: 6 tablets
Rate: variable

Aqueduct Flex Granular Wetting Agent

AN ALL-NEW FAST ACTING DUAL-ACTION GRANULAR THAT TREATS AND PREVENTS LOCALISED DRY SPOT

Provides response in as little as 3 days

Pack Size: 20kg
Rate: 4000m²

isturf Rain Pro 2 Applicator

Accepts most of the market leading wetting agent tablets.

Fully adjustable spray pattern nozzle.
On/Off valve.

Comes with easy opening hand tool.

Aquatrols Liquid Pro Applicator

Allows user to apply their chosen wetting agent liquids directly to the turf.

Aquatrols Advantage Tablet Applicator

Allows user to apply Advantage tablets.

ACCESSORIES

Ocean Glas

Cold processed seaweed concentrate liquid.

All natural product.

Pack Size: 10lt/200lt/1000lt

Application Rate: 20 to 30lts/ha

PK TURF 0-29-19w/w

Phosphite based liquid biostimulant with potassium. Phosphite has been proven to reduce disease and encourage rooting.

Pack Size: 10lt

Application Rate: 10 to 20lt/ha

Every 3 to 4 weeks

Redox C-85 Humic

A humic and fulvic acid (8%).

Pack Size: 10lt

Application Rate: 5 to 10lts/ha

Every 3 to 4 weeks

Redox Si

A 22% Silicon with 10% Calcium liquid for tournament preparation and green speed.

Pack Size: 10lt

Application Rate: 5 to 10lts/ha

Every 3 to 4 weeks

Redox NatureCure

A botanical extract that contains 5% potassium. Improves antioxidant production aStimulates root growth & metabolism. Reduces abiotic stress..

Pack Size: 10lt

Application Rate: 5 to 10lts/ha

Every 3 to 4 weeks

PPE

JSP HALF MASK

Force8 half mask with 'PresToCheck' filters from JSP. The Force8 twin cartridge half mask with Typhoon valve offers superior low breathing resistance and a 4 point suspension harness with quick release buckles. Providing filtering protection against particulates, many gases and vapours.

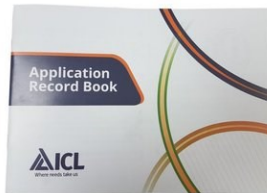

Solvex Nitrile Gloves.

Gripster Skins Workshop Semi Disposable Gloves.

SELECTIVE HERBICIDES

Praxys® Contains: 144g/l fluroxypyr-meptyl, 80g/l clopyralid and 2.5g/l florasulam
Effective on Daisy, Clover, Buttercup, Ribwort, Plantains and

Pack Size: 2lt
Application Rate: 1 to 2lt/ha
Pack covers: 5000 to 10,000m²

Enforcer®

Contains: 701g/l 2-4d, 70g/l MCPA, 42g/l MCPP-P, 20g/l dicamba.
Effective on Daisy, Clover, Buttercup, Ribwort, Plantains and

Pack Size: 5lt
Application Rate: 7.5lt/ha
Pack treats: 6666m²

Relay Turf Elite

Contains: 19.5g/l dicamba, 245g/l MCPA, 42g/l mecoprop-p.
Effective on Daisy and other broad leaved

Pack Size: 5lt
Application Rate: 5lt/ha
Pack treats: 1ha

2,4-D

Contains: 500g/l 2,4-D
Herbicide for broad-leaved weeds in managed amenity turf.

Pack Size: 5lt, 10lt
Application Rate: 2.8 to 3.3 lts/ha

Dicophar

Contains: 70g/l 2,4-D, 70g/l MCPA, 42g/l MCPP-P & 20g/l Dicamba
Herbicide for broad-leaved weeds in managed amenity turf.

Pack Size: 1lt
Application Rate: 7.5lts/ha
Pack treats: 1333m²

TOTAL HERBICIDES

Gallup 360 Glyphosate

Contains: 360g/l glyphosate
Systemic activity gives effective control of roots, shoots and leaves.

Pack Size: 5lt
Application Rate: variable
Pack Treats: 5,000 to 10,000m².

Round Up ProActive Contains 360g/l glyphosate

Non selective control of annual and perennial weeds. Non—hazardous as classified by COSHH.

Pack Size: 5lt
Application Rate: variable
Pack covers: 5,000 to 16,667 m².

Round Up Pro Vantage Contains 480g/l glyphosate

Non selective control of annual and perennial weeds. Non—hazardous

Pack Size: 5lt
Application Rate: variable
Pack covers: up to 2.2ha².

Gallup Home & Garden

Contains: 360g/l glyphosate
Systemic activity gives effective control of roots, shoots and leaves.

Pack Size: 1lt/5lt
Application Rate: 24ml per litre over 40m²

Diamond Horse Tail WeedKiller

Contains: 160g/l 2,4d, 240g/l glyphosate.
Controls Mares Tail, Horse Tail, Japanese Knotweed, Thistle etc.

Pack Size: 1lt/5lt
App Rate: 3 to 5lt/ha in 200lt water

Icade

Contains: 12g/l aminopyralid and 120g/l triclopyr

Effective against Japanese Knotweed, Himalayan Balsam, hogweed and bramble.

Pack Size: 1lt

Application rate: 200ml in 10lt/500m²

Ecoplug Max—Tree Stump Killer

Contains: 204mg glyphosate

Prevents regrowth of tree stumps. Should be inserted from above at between 6—7cm around entire circumference of the stump.

Pack Size: 100 Ecoplugs

Drill bit: available separately

Pre Emergent Herbicides

Lockstar®

Contains: 360g/kg diflufenican and 10g/kg iodosulfuron-methyl-sodium
Total herbicide for pre-emergence and early post-emergence control of annual and perennial weeds on natural surfaces. Can be tank mixed with glyphosate.

Pack Size: 500g (Wettable granule)

Pack Treats: 10,000m².

Chikara®

Contains: 25% w/w flazsulfron
A non selective herbicide for use on natural surfaces not intended to bear vegetation. Can be mixed with glyphosate.

Pack Size: 50g (Wettable granule)

Pack Treats: 3,333m².

Spray Equipment

Berthoud 16 Ltr Vermorel 2000 Pro Comfort Sprayer

The Berthoud Vermorel 2000 Pro Comfort Sprayer is a 16 litre backpack sprayer with unique contoured backframe. The patented contoured backframe assembly is unique to Berthoud sprayers and is not seen on any other make of backpack sprayer. This sprayer is fitted with Comfort Style padded straps and waist belt assembly. Waist belt has a fitted pocket suitable for carrying a mobile phone or spare nozzles etc.

Metabi Evoultion 15lt Battery Powered Knapsack Sprayer
Removable battery for charging.
Up to 25 tanks on one charge.
18v Lithium battery and charger.

Draper 12Ltr Knapsack

An economy knapsack for application of algacides, herbicides etc.

Algaecides & Biocides

Sapphire is a hard surface cleaner for use on all hard surfaces including; concrete, asphalt, tarmac, block paving, artificial sports surfaces and hard surfaces (except memorial marble and slate) Cleans and removes algae, slimes and lichens. NoMix Dual

Contains: 162 g/L isopropylamine salt of glyphosate (equivalent to 120 g/L glyphosate) plus 2.22 g/L sulfosulfuron

Dual is the only residual herbicide available today with approval for use on both hard and soft surfaces

Pack Size: 4 x 750ml, 5lt

Application rate: 9lts/ha

Pack coverage: 750ml 1400 linear meters at 0.6 swath width

NoMix Conquerer Amenity

Contains 194g/litre (17.9%) isopropylamine salt of glyphosate (equivalent to 144g/litre glyphosate).

Aquatic approved clean label. Used to control annual and perennial grasses and perennial broad-leaved weeds.

Highly effective aquatic herbicide, controlling emergent and floating weeds. Use in a wide range of situations, including aquatic, amenity industrial areas, forestry, parks, paved areas and highways. Also recommended for clearing weeds prior to planting shrub and rose beds.

App Rates: Established annuals, deep-rooted perennials and broad-leaved weeds: 10 litres per ha
Light vegetation and small annual weeds: 7.5 litres per ha
Aquatic situations – emergent weeds such as reeds, grasses and watercress: 12.5 litres per ha
Aquatic situations – floating weeds such as water lilies: 15 litres per ha.

Available in 4 x 750ml & 5lt pack.

NoMix Cleaner

Must be used after every use of pesticide to prevent blocking. Run the Universal cleaner until spray turns from white to clear. Designed specifically for use with the Nomix Total Droplet Control Applicator. Can be used for cleaning all Nomix pesticide products

Pack Size: 4 x 750ml, 5lt

NoMix HiLite

Contains 194g/litre (20.1% w/w) isopropylamine salt of glyphosate (equivalent to 144g/litre glyphosate).

Technically advanced non-irritant glyphosate formulation. Rain-fast within 30 – 60 minutes of application.

Pack Size: 4 x 750ml, 5lt

Application rate: 97.5 to 10lts/ha

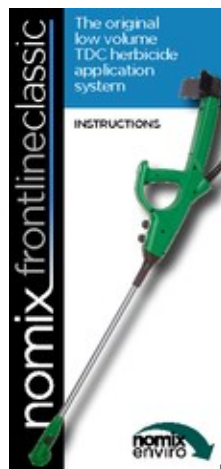

Nomix Frontline Compact Total Droplet Control (TDC) Applicator

Simply click a 750ml cartridge of herbicide into the applicator, calibrate and you're ready to spray.. Complete with rechargeable batteries giving up to 35 hours spraying time per charge.

No backpack - ideal for smaller areas of use. Targeted application - ensures product is only applied where needed. Use with NOMIX TDC Weedkillers.

Nomix Frontline Classic

The Frontline Classic combines the latest in low volume application technology, with Nomix TDC herbicides, to control weeds safely, effectively and efficiently.

- Lightweight - 5 litre box of ready to use herbicide connects directly to the applicator
- Includes battery pack and charger plus 5 litre backpack
- Powerful battery - up to 2 days' spraying before recharging
- LCD readout - displays key information
- Optimal operator control in all situations - electronic trigger mechanism
- Pacer control - more accurate application and ease of use for the operator.

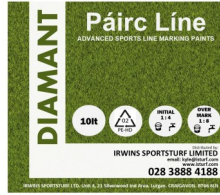

PITCH MARKING

Páirc Líne Diamant White

Páirc Líne Diamant marking paint concentrate can be applied by transfer wheel or spray line

marker.

Spec Gravity 1.6kg/lit

Initial marking: 1 part DIAMANT to 2 to 3 parts water.

Over marking: 1 part concentrate with up to 8 parts water.

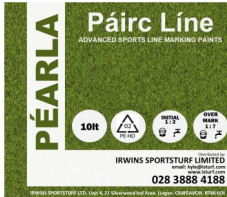

Pack Size: 10L

Páirc Líne PÉARLA White

Páirc Líne Péarla marking paint concentrate can be applied by transfer wheel or spray line

marker.

Spec Gravity 1.55kg/lit

Initial marking: 1 part DIAMANT to 2 to 3 parts water.
