Introduction

Irwins Sportsturf Limited was established in May 2018 to offer customers the best service and products available from leading suppliers in the industry.

We are pleased to be distributors for Angus Horticulture, Aquatrols, Barenbrug, Bayer, Bowcom, ICL, Ocean Knowledge & Syngenta, along with our own bespoke range of granular and liquid products under the "Isturf" and Páirc Líne brands. This allows us to tailor formulations for the specific and individual requirements in our locality.

This is our largest ever catalogue, and to offer the best service and customer support over 98% of the products listed are in stock.

We also offer course equipment from Pinseeker, Par Aide, FMW Distinct TJ Golf & Boyd Golf Course Accessories.

Location

Our purpose built 5300ft² office, warehouse and trade counter located just off the M1 at Junction 10 in Lurgan serves sports clubs, contractors and members of the public with materials and garden machinery.

May I take the opportunity to thank our customers for their continued support.

We offer regular deliveries throughout Northern Ireland in our own vehicles or via a network of couriers.

Kind Regards

Kyle Irwin

IGNITE 10-4-4 4Mg 3Fe 8Ca + seaweed is a mini granule blended fertiliser contains 2 forms of quick release nitrogen to encourage early Spring growth and colour.

IGNITE is an ideal Spring start fertiliser for use in cooler conditions.

IGNITE is best applied where rapid response is required.

IGNITE contains readily available Phosphorus and Potassium for enhanced turf vigour and health.

IGNITE homogenous fine turf granules contain every nutrient in every granule.

IGNITE is best watered in after application to aid dispersal.

Bag Size: 20kg

Application Rate: 35 to 50g/m²

ISTURF FINE TURF FERTILISERS

ISTURF Fine Turf Fertilisers have been specifically formulated to the high standards of Irwins Sportsturf. Using the highest quality ingredients available to ensure consistent high quality results.

SGN 125. App. rate of 35 to 50g/m².

Moss Control	4-0-4 9Fe

Turf
REWARDS.com

ICL Gronamic® Golf 6-2-4

Contains plant-based organic nutrition with a proven bio-stimulant. Organic content is 100% plant based. Contains SMX seaweed extract. Phased release nitrogen.

Pack Size: 20kg bag

Application Rate: 35 to 50g/m²

Bag covers 571-800m²

ICL Gronamic® Golf High K

5-0-22 +2MgO +1.5CaO +0.5Fe

Contains a unique blend of mineral and plant-based organic nutrition with a proven biostimulant. The organic content is 100% plant based. Phased nitrogen release. Contains SMX seaweed extract.

Pack Size: 25kg bag

Application Rate: 25 to 35g/m²

Bag covers 571—800m²

LAWN SAND

Angus High Iron Lawnsand 3-0-0 7fe

Our Lawn Sands are the finest on the market.

- Spread more easily
- Are less moist
- Contain more iron than most of our competitors
- Lower application rates than many of our competitors
- More economical to use
- Less handling

Bag Size: 25kg

Application Rate: 35 to 50g/m²

High N (2-3 month) 24-5-11

Ideal first controlled release fertiliser of the season. Quick reaction in cooler conditions.
42% coated.
1mm to 2.5mm

Spring Starter (2-3 month) 20-6-10

Ideal for a spring boost or to sustain growth through the season.
40%+ coated.
1mm to 2.5mm

ACTIVE (2-3 month) 15-5-15 2Ca 2Mg

Ideal pre stress conditioning.
41% coated.
1mm to 2.5mm

Pack Size: 25kg bag

Application Rate: 20 to 35g/m²

COMPO NOVATEC 24-5-5 2Mg

24-5-5 2Mg + TE 3mth+

Granular fertiliser with nitrification inhibitor 3,4-DMPP, for enhanced nitrogen-efficiency and uniform plant growth.

High proportion of the phosphate is immediately available for the turf.
The fine granulation enables an even distribution on the field.

Bag Size: 25kg

Application Rate: 30 to 50g/m²

ISTURF OUTFIELD FERTILISERS

ISTURF Outfield Fertilisers have been specifically formulated to the high standards of Irwins Sportsturf. Using the highest quality ingredients available to ensure consistent high quality results.

ICL GRONAMIC® ORGANIC BASED FERTILISER

ICL Gronamic® SPORT High N 16-3-6 2MgO 2CaO 0.5Fe

Organic component supplies carbon to the soil

High nitrogen levels for sustained growth

Combination of ammonium, urea and organic nitrogen sources

Polyhalite mineral included to supply CaO, MgO & K for healthy growth

Ideal through main periods of the growing season

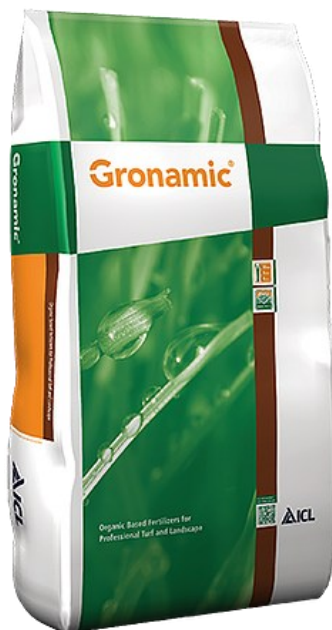

ICL Gronamic® Allround 10-4-5 2Mg 0.5Fe

Supports plant growth through the season

Combination of ammonium, urea and organic nitrogen sources

Sustained nutrient release

Organic component supplies carbon to the soil

Pack Size: 25kg bag
Application Rate: 30 to 40g/m²
Bag covers 625–833m²

ISTURF MOSSKILLER 4-0-4 9FE

High Iron content for moss control

Ideal as a Spring Starter fertiliser

Potassium and iron to aid turf hardening and disease control

Pack Size: 20kg bag

Application Rate: 35 to 50g/m²

Pack treats: 400 to 571m²

ICL SPORTSMASTER®

ICL SPORTSMASTER RENOVATOR PRO

14-0-5

16Fe + Herbicide

16% IRON

All in One product for broad spectrum weed control. High Iron content for moss control.

ICL SPORTSMASTER CLEANRUN

14-0-5 + Herbicide

NO IRON

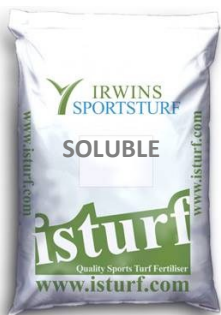

Weed and feed single application in spring or summer when broad leaf weeds are present.

Pack Size: 25kg bag

Application Rate: 35g/m²

Pack treats: 714m²

SOLUBLES & STRAIGHTS

ISTURF Hi N Special 28-6-12+MgO + TE

A high nitrogen analysis containing urea, ammonium and nitrate sources. Fully chelated micro nutrient package.

ISTURF K-Mag 15-7-30 +MgO + TE

A highly soluble potassium analysis with potassium nitrate. Acid buffering. Fully chelated trace element package.

Pack Size: 20kg bag

Application Rate: 20 to 60kg/ha

Sulphate of Ammonia 21-0-0

A high quality 21-0-0 nitrogen. Highly soluble. Low on sodium and chloride. Suitable for foliar application.

Pack Size: 25kg bag

Application Rate: 6 to 25kg/ha

Higgi Ferrous Sulphate

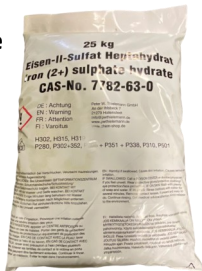

Damp Grade 17.8% Fe.

Highly soluble

Ferrous sulphate.

Pack Size: 25kg bag

App Rate: 6 to 25kg/ha

ISTURF 46-0-0

A high quality 100% Urea Nitrogen source. Highly soluble.

Pack Size: 20kg bag

App. Rate: 6 to 25g/m²

Magnesium Sulphate 16% Magnesium Highly soluble

Pack Size: 25kg bag

Application Rate: variable

Manganese Sulphate 32% Manganese Soluble

LIQUIDS

PK TURF 0-29-19w/w
Phosphite based liquid bio stimulant with potassium. Phosphite has been proven to reduce disease and encourage rooting.

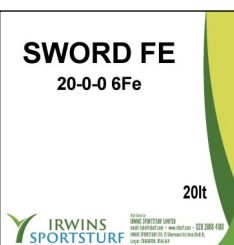

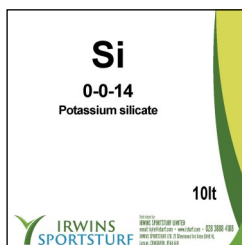

ISTURF 7 Iron
A 7% w/v liquid iron for green up and moss control.

Pack Size: 10lt
App Rate 10 to 20lt/ha
Every 3 to 4 weeks

Pack Size: 10lt
App Rate: 20 to 40lt/ha

Si 0-0-14 7% Si + humates
Formulation containing high levels of potassium silicate. Designed to help increase leaf and stem strength to increase wear tolerance and help produce a cleaner cut.

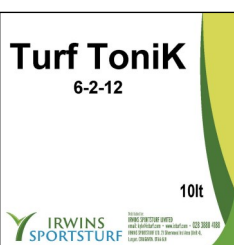

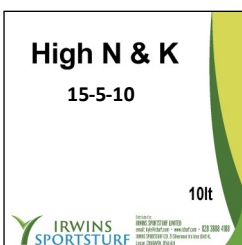

ISTURF Sword n & Fe
An amenity 20-0-0 6fe w/v liquid for green up and moss control.

Pack Size: 10lt
App Rate: 5lt/ha in 500 to 800lts water

Pack Size: 20lt
App Rate: 20 to 60lt/ha

High N with K 15-5-10
A Spring & Summer liquid fertiliser.

Turf ToniK 6-2-12
A Spring & Autumn liquid fertiliser & hardener.

Pack Size: 10lt
App Rate: 20 to 40lt/ha

Pack Size: 10lt
App Rate: 20 to 40lt/ha

Ocean Glas

Fresh Ascophyllum Nodosum contains carbohydrates, essential amino acids, vitamins, and micro/macro nutrients to support plant health. Our unique, innovative cold process extraction method was meticulously designed in order to obtain the freshest and purest extract possible from hand harvested Ascophyllum Nodosum from the Donegal coastline.

Pack Size: 10lt/200lt/1000lt

Application Rate: 20 to 30lts/ha

ISTURF SWORD N & Fe

20-0-0 6Fe

IDEAL TANK MIX WITH PGR's

WETTING AGENTS

Revolution

THE WORLDS LEADING SOIL SURFACTANT

Ensures Efficient water usage.
Improves rootzone moisture distribution. Maximizes turf quality under stressful conditions

Pack Size: 10lt, 208lt, 1022t
Application Rate: 19lt/ha

Primer Select

Prevents water repellency issues

Promotes turf uniformity

Establishes the desired "matrix flow" in the rootzone.

Flexible application rates

Pack Size: 10lt
Application Rate: 10lt/ha

Firmway

Helps deliver a consistent playing surface

Improves the distribution and infiltration of irrigation water and rainfall

Pack Size: 10lt
Application Rate: 2 to 6 lt/ha

Aqueduct

Aqueduct is a rapid recovery soil surfactant that is specifically designed to quickly alleviate localized dry spot. It can also be used as a pre-treatment tool to correct problem areas on turf before starting a regular preventative soil surfactant program.

Pack Size: 10lt
Application Rate: 25lt/ha

Zipline Pro

Zipline Pro contains a blend of two high performance proven chemistries to aid with water management. The inclusion of cold pressed seaweed provides numerous plant health benefits.

Pack Size: 10lt
Application Rate: 20lt/ha

Dispatch Sprayable

Soil Penetrant.

Non Anionic—will not adversely affect soil structure. Patented technology Improves infiltration and penetration of water

Pack Size: 10lt
Rate: 2lt/ha

Aqueduct Flex Granular Wetting Agent

AN ALL-NEW FAST ACTING DUAL-ACTION GRANULAR THAT TREATS AND PREVENTS LOCALISED DRY SPOT

Provides response in as little as 3 days

Advantage + Seaweed Tablets

Distributes applied water more uniformly

Addition of seaweed reduces plant stress and aid root growth

Pack Size: 6 tablets
Rate: variable

Verde LNX Base N

37-0-0 containing ammonia, urea and nitrate forms of nitrogen.

Pack Size: 10lt

Application Rate: 10l to 50ts in 400 to 600lts water per ha.

**Verde LNX Base K**

0-0-38

Pack Size: 10lt

Application Rate: 10 to 20lts every 2 to 4 weeks in 400 to 600lts water per ha.

**Verde LNX Elite Pro**

A humic and fulvic acid (8%).

Pack Size: 10lt

Application Rate: 5 to 10lts/ha Every 3 to 4 weeks

**Verde LNX Base Ca**

8-0-0 with 13% Ca & seaweed extract.

Pack Size: 10lt

Application Rate: 10lts/ha

**Verde LNX Ferrosol Pro**

5-0-0 7Fe

Pack Size: 10lt

Application Rate: 20lts/ha monthly

**Verde LNX Base Micro**

A balanced micronutrient package

Beneficial for sand based rootzones

Pack Size: 1lt

Application Rate: 750ml to 1.5lt/ha

**Verde LNX Attain Max**

8-0-0 3% bio-nutritional formulation and amino acid package.

Pack Size: 10lt

Application Rate: 10lts/ha

**Verde LNX Sward**

0-6-5 with micros

Pack Size: 10lt

Application Rate: 5 to 10lts/ha

CLEANERS

Spotless spray tank cleaning agent

and general-purpose cleaner

Spotless is a highly formulated
cleaning and decontamination
agent for spraying tanks, spraying
equipment and general-purpose
cleaning. It is especially effective
at clearing sticky formulations.

RUST REMOVER

Removes rust/iron stains from
spray equipment, paving, etc.

Isturf
RUST REMOVER

DESCRIPTION
ISTURF RUST REMOVER IS A VERY HEAVY DUTY ACID BASED RUST REMOVER. AN EXCEPTIONAL RUST REMOVER FOR MOST METALS, PLASTICS, GLASS, RUBBER & MASONRY. RUST REMOVER WILL ALSO REMOVE RUST FROM STAINLESS STEEL, IRON AND MOST METALS.

DIRECTIONS
ISTURF RUST REMOVER CAN BE USED NEAT OR DILUTED WITH WATER. BRUSH OR SPRAY ONTO THE SURFACE ALLOWING A FEW MINUTES TO PENETRATE. WHILE AGITATING WITH STEELWOOL, SIMPLY WASH AWAY AFTER TREATMENT. FOR CLEANING OF MASONRY DILUTE 1:5 WITH WATER, AGITATE WITH A BRUSH AND RINSE. ALWAYS TEST A SMALL AREA, APPLIED AT OPERATORS RISK.

FOR PROFESSIONAL/COMMERCIAL/INDUSTRIAL USE

HEALTH & SAFETY INFORMATION:
CAUTION: IRRITANT. KEEP OUT OF REACH OF CHILDREN. IN CASE OF CONTACT WITH SKIN: IMMEDIATELY WASH WITH PLentiful OF WATER. SEE MEDICAL ADVICE. AFTER CONTACT WITH SKIN, WASH WITH WATER. WEAR SUITABLE GLOVES AND EYE FACE PROTECTION. IN CASE OF ACCIDENT OR IF YOU FEEL UNWELL, SEE MEDICAL ADVICE. (SHOW LABEL WHEN POSSIBLE)

SELECTIVE HERBICIDES

Praxys® Contains: 144g/l fluroxypyr-meptyl, 80g/l clopyralid and 2.5g/l florasulam
Effective on Daisy, Clover, Buttercup, Ribwort, Plantains and other broad leaved weeds.

Pack Size: 2lt

App Rate: 1 to 2lt/ha

Relay Turf Elite

Contains: 19.5g/l dicamba, 245g/l MCPA, 42g/l mecoprop-p.
Effective on Daisy and other broad leaved

Pack Size: 5lt

Application Rate: 5lt/ha

Pack treats: 1ha

2,4-D

Contains: 500g/l 2,4-D

Herbicide for broad-leaved weeds in managed amenity turf.

Pack Size: 5lt, 10lt

Application Rate: 2.8 to 3.3 lts/ha

Pre Emergent Herbicide

Lockstar®

Contains: 360g/kg diflufenican & 10g/kg iodosulfuron-methyl-sodium

Total herbicide for pre-emergence and early post-emergence control of annual and perennial weeds on natural surfaces. Can be tank mixed with glyphosate.

Pack Size: 500g (Wettable granule)

Pack Treats: 10,000m².

TOTAL HERBICIDES

Amenity Glyphosate

Contains: 360g/l glyphosate
Systemic activity gives effective control of roots, shoots and leaves.

Pack Size: 5lt

Application Rate: variable

Pack Treats: 5,000 to 10,000m².

Round Up ProActive Contains 360g/l glyphosate

Non selective control of annual and perennial weeds. Non—hazardous as classified by COSHH.

Pack Size: 5lt

Application Rate: variable

Pack covers: 5,000 to 16,667 m².

Round Up Pro Vantage Contains 480g/l glyphosate

Non selective control of annual and perennial weeds. Non—hazardous

Pack Size: 5lt

Application Rate: variable

Pack covers: up to 2.2ha².

Round Up Sonic Contains 450g/l glyphosate

Non selective control of annual and perennial weeds.

Pack Size: 20lt

Application Rate: 2.4 to 4.8lt/ha

Pack covers: 4.2 to 8.3ha.

Kyleo

Contains: Glyphosate & 24-D
Effective against hard to kill weeds such as Maretail.

Pack Size: 15lt

App Rate: 5lt/ha

Icade

Contains: 12g/l aminopyralid and 120g/l triclopyr

Effective against Japanese Knotweed, Himalayan Balsam, hogweed and bramble.

Pack Size: 1lt

Application rate: 200ml in 10lt/500m2

Spray Equipment

Berthoud 16 Ltr Vermorel 2000 Pro Comfort Sprayer

The Berthoud Vermorel 2000 Pro Comfort Sprayer is a 16 litre backpack sprayer with unique contoured backframe. The patented contoured backframe assembly is unique to Berthoud sprayers and is not seen on any other make of backpack sprayer. This sprayer is fitted with Comfort Style padded straps and waist belt assembly. Waist belt has a fitted pocket suitable for carrying a mobile phone or spare nozzles etc.

Metabi Evoulution 15lt Battery Powered Knapsack Sprayer

Removable battery for charging.
Up to 25 tanks on one charge.
18v Lithium battery and charger.

Spares available.

Draper 12Ltr Knapsack

An economy knapsack for application of algaecides, herbicides etc.

Algaecides & Biocides

Ranger Pro is a professional biocide for use on hard & artificial surfaces. Containing spreaders and wetters to improve surface coverage as well as broader spectrum biocidal qualities.

DISINFECTION OF ARTIFICIAL PITCHES AND HARD SURFACES

Meets British (BS) and European (EN) regulatory standards for efficacy against viruses (EN BS 14476), bacteria (EN BS 1276) and yeasts (EN BS 1650) at the application concentration.

99.9% effective against bacteria, yeast and viruses

Cleans and removes algae, slimes and lichens

Reduces the risk of slippery surfaces

Fast-acting—results can be seen in 48 hours

Long—lasting

APPLICATION RATES:

Normal use:

10L in 200L of water will cover up to 1,000m²

Light Use:

10L in 400L of water will cover up to 2,000m²

Disinfectant use:

10L in 10L in 400L of water will cover up to 10,000m²

Pack size: 5lt

Pack coverage: 500 to 1000m²

Sodium Hypochloride

Contains: 14%

NoMix Dual

Contains: 162 g/L isopropylamine salt of glyphosate (equivalent to 120 g/L glyphosate) plus 2.22 g/L sulfosulfuron

Dual is the only residual herbicide available today with approval for use on both hard and soft surfaces

Pack Size: 4 x 750ml, 5lt

Application rate: 9lt/ha

Pack coverage: 750ml 1400 linear meters at 0.6 swath width

NoMix HiLite

Contains 194g/litre (20.1% w/w) isopropylamine salt of glyphosate (equivalent to 144g/litre glyphosate).

Technically advanced non-irritant glyphosate formulation. Rain-fast within 30 – 60 minutes of application.

Pack Size: 4 x 750ml, 5lt

Application rate: 97.5 to 10ts/ha

NoMix Conquerer Amenity

Contains 194g/litre (17.9%) isopropylamine salt of glyphosate (equivalent to 144g/litre glyphosate). Aquatic approved clean label. Used to control annual and perennial grasses and perennial broad-leaved weeds.

Highly effective aquatic herbicide, controlling emergent and floating weeds. Use in a wide range of situations, including aquatic, amenity industrial areas, forestry, parks, paved areas and highways. Also recommended for clearing weeds prior to planting shrub and rose beds.

App Rates: Established annuals, deep-rooted perennials and broad-leaved weeds: 10 litres per ha Light vegetation and small annual weeds: 7.5 litres per ha Aquatic situations – emergent weeds such as reeds, grasses and watercress: 12.5 litres per ha Aquatic situations – floating weeds such as water lilies: 15 litres per ha.

Available in 4 x 750ml & 5lt pack.

NoMix Cleaner

Must be used after every use of pesticide to prevent blocking. Run the Universal cleaner until spray turns from white to clear. Designed specifically for use with the Nomix Total Droplet Control Applicator. Can be used for cleaning all Nomix pesticide products

Pack Size: 4 x 750ml, 5lt

Nomix Frontline Classic

The Frontline Classic combines the latest in low volume application technology, with Nomix TDC herbicides, to control weeds safely, effectively and efficiently. • Light-weight - 5 litre box of ready to use herbicide connects directly to the applicator • Includes battery pack and charger plus 5 litre backpack • Powerful battery - up to 2 days' spraying before recharging • LCD readout - displays key information • Optimal operator control in all situations - electronic trigger mechanism • Pacer control - more accurate application and ease of use for the operator.

10lt Bowcom Quantum

A blend of highly micronized Titanium Dioxide, resins and surfactants.

QUANTUM line marking paint has been specifically formulated to offer an economic, ready to use, low volume, bright line that will over-mark a standard football pitch with a little as 1.1lt.

- Ultimate atomization through all hollow cone nozzles
- Superb brightness in single pass
- Ready for use, no mixing or pouring
- 1.1 litre over-mark on regular football pitch
- Quick drying
- Economic, Durable, long lasting line
- Advanced stability in solution
- Non OEM Applicator compatible

Pack Size: 10lt

10lt Bowcom Supreme +

Benefiting from a brand new formulation, and remaining the most popular line marking Concentrate on the market, Supreme Plus line marking paint produces an exceptionally bright, durable weather resistant line.

- New marking 1:5 Paint to water
- Up to 1:8 overmarking

Pack Size: 10lt

10lt Páirc Líne Quartz White

Páirc Líne QUARTZ line marking paint has been specifically formulated to offer an economic, ready to use, low volume, bright line marking paint.

- Ultimate atomization through all hollow cone nozzles
- Superb brightness in single pass
- Ready for use, no mixing or pouring
- Quick drying
- Economic, Durable, long lasting line
- Advanced stability in solution
- Non OEM Applicator compatible

Pack Size: 10lt

Páirc Líne Diamant White

Páirc Líne Diamant marking paint concentrate can be applied by transfer wheel or spray line marker.

Initial marking: 1 part DIAMANT to 2 to 3 parts water.

Over marking: 1 part concentrate with up to 8 parts water.

Pack Size: 10lt

PITCH MARKING

FORZA TRIAD

Achieve consistent, high-quality lines on grass sports pitches with the FORZA TRIAD.

This easy-to-use, 3-wheel, battery powered, electric marking machine offers adjustable line width (2-5in) for different sports and interchangeable nozzles to adjust paint output to suit your paint budget.

Suitable for groundsman, contractors & pitches of all levels.

- Bult in priming system
- Interchangeable nozzles
- Instant spray shut off
- Compatible with Bowcom Quantum and Páirc Líne Quartz line marking paints

ISTURF Stadium MAX

Wheel to Wheel Transfer Line Marking Machine

Available in 3" or 4".

Weight: 21kgs (46lbs)

Tank comes with drain plug for emptying after use

Adjustable handle heights with soft grips for comfort

Large-tubed pneumatic tyre size: 250mm OD x 90mm thick

Tank has a 13.8L paint fluid capacity

Bowcom Atom

Line marking applicator offers flexible spray options for both the Bowcom Atomic & Quantum line marking paints.. Durable lightweight, stable construction. Hollow-Cone / misting nozzle technology. High pressure self priming pump. Non-drip, instant shut off. Integral cleaning system. Integral quick-bleed system.

- 1 x 10lt of paint can mark up to 9 soccer pitches
- Hollow-Cone / misting nozzle technology
- High pressure self priming pump
- Non-drip, instant shut off
- Integral cleaning system
- Integral quick-bleed system
- High capacity 12v battery
- Bearing wheels on SS axle
- Puncture proof tyres

Bowcom GMX

Offers the ultimate in precision line marking application incorporating a number of comprehensive, flexible spray options... Fully adjustable line width. Central or off set spraying. Protected, quick release spray head assembly. Optional twin jet nozzle. Optional side marking arm (L/R).

BOWDRY MKIII

The new **Bowdry MK III** offers a light and strong surface water removal solution that ensures sporting fixtures can continue when under normal conditions, standing water would prevent play.

The **Bowdry MK III** collects up to 60 litres of water per minute and, due to its improved ergonomic design, is even simpler to operate, transport and store.

Bowdry MK III incorporates a wider, durable foam roller that efficiently absorbs the water and does not damage turf. An integrated storage tank collects the excess water and can then be easily emptied from a valve located on the side panel.

Bowdry MK III also retains a four wheel chassis that evenly distributes the weight, ensuring effective water removal is achieved even on the finest turf.

SPREADERS & APPLICATION

Accupro ST360 Pedestrian Spreader

SmartSpread™ - Ensures precise application every time.

Maintenance-free gearbox - No greasing required, ensuring smooth and consistent performance with minimal upkeep.

Stainless-steel frame - Built for durability, withstands frequent use and harsh conditions, providing long-lasting reliability

30kg capacity hopper - Shaped to enhance the flow of granules to the impeller, preventing clumping and ensuring a continuous, smooth flow of material.

Removable rain cover - Protects the product if being applied during adverse weather conditions.

Pneumatic turf tyres - Distributes weight evenly, preventing turf damage and ensuring smooth mobility across different surfaces.

Ergonomic handle - Designed for comfort, reducing operator fatigue during extended use.

Open/Shut-Off control - Easy control of material flow, enhancing operational efficiency.

Integrated front handle - Allows for safe and simple lifting, making transportation and handling easy

Three year warranty - The spreader comes with a three year limited warranty.
